Hell!

Sorry, I just saw everyone's email.

I spoke with Izzy earlier and she suggested we become familiar with the destination before we meet.

Well dara santos and myself met already and I won't be able to meet again today because I'm on the way to the hospital because my mother in law was admitted for symptoms of a heart attack. .. I may be able to meet later in the evening if not tomorrow... dara is going to explore maya astronomy and I'm going to explore maya agriculture u all are welcome to do the same or pick another part of the maya civilization. ... I will have my phone so contact me via email or text 9564571249.... thanks

We decided to do the presentation like this:

- 1) Introduce the Team members, scenario and a brief description of Maya Science and its creators with a PowerPoint on Blackboard
- 2) paste the link of our tour place to the chat box so everybody can join in
- 3) once we are all inside Maya Science then each one of us will be giving a tour to the different places there

- Maya Science has 3 educational places:

- Maya Astronomy - tour by Dara (me)

<http://maps.secondlife.com/secondlife/University%20of%20Washington/237/62/113>

- Maya Fishing - tour by Santos

<http://maps.secondlife.com/secondlife/University%20of%20Washington/229/44/21>

- Maya Agriculture - tour by April

<http://maps.secondlife.com/secondlife/University%20of%20Washington/120/101/26>

To teleport to different places during the Tour, we will do it by using the Maya Science Teleport board (like the picture shown bellow) you right click on the section you want to go and select teleport

*** Christine- you could help me with half of the Maya Astronomy tour (I could do the outside of the Pyramid tour and you could do the inside the pyramid tour) or the other way around

****I will be doing the PowerPoint Presentation with screenshots and share it tonight with you all to make any changes

**** I believe Izzy won't make it to the presentation but I know she has done a lot with the team's wiki, theme and organization.

**** I added the links to the different places so you can get familiar with it.

PLEASE LET ME KNOW WHAT YOUR SUGGESTIONS/IDEAS

Thak you

-Dara
